

REEM AMOUDI GHUBAYRA

Jazan, Saudi Arabia

Phone: +966555862672

E-Mail: rghubayra@jazanu.edu.sa

OBJECTIVES

- Pursue a PhD in Chemistry at University of Liverpool.
- Advance my skills, and practical aptitude to achieve my long-term career ambitions.
- Utilize my academic background, experience and aptitude to contribute in cohort.

EDUCATION

Jazan University | Saudi Arabia.

Bachelor Degree in Chemistry – 2011

Central Michigan University | United States of America.

Master of Science in Chemistry – 2017

- Participated in several group projects and assignments with attention to collaborative work.
- Coordinated and participated in several social and extra-curricular activities.
- Working under own initiative and as a team player.
- Published (Recent Advances in Electrospun Poly(ϵ -caprolactone)-Based Materials and Their Biomedical Applications). https://link.springer.com/chapter/10.1007/978-981-10-7787-6_3

TRAINING AND CERTIFICATES

- Intensive English language training at INTO of Oregon State University.
- Scanning Electron Microscope (SEM), X-Ray Diffraction (XRD), and Differential Scanning Calorimetry (DSC).
- Nuclear Magnetic Resonance spectroscopy (NMR) and Infrared spectroscopy (IR).
- Obtaining a certificate from Saudi Club in USA for effective participant.

SKILLS

- Strong communication and interpersonal skills.
- Appreciation for team work and collaborative team environment.
- Passion for life-long learning through book reading, conference attendance and participation in extra-curricular activities.
- Solid knowledge in Chemistry, especially in Advanced Physical Chemistry and Quantum.
- Solid reading, writing and speaking skills in English language.
- Active listening and effective speaking skills with passion to present projects and converse publicly.
- Knowledge of using technologies such as computer.
